Web Designer/Developer

About the Job

FUNimation® Entertainment, one of the nation's leading independent home video entertainment companies, is a full service brand management company with in-house production, marketing, public relations, licensing, internet, home video distribution and toy divisions. We are a growing company seeking an energetic and motivated full-time entry-level web designer/developer.

The applicant must be a creative, self-motivated individual, capable of working independently or in a team environment, on multiple projects at once and complete assigned tasks within a time-

sensitive environment. The ideal candidate for this position will be a high-energy, self-motivated graphic designer with the ability to turn rough ideas into their ideal website.

1. College/University degree preferred; 2 to 4 years trade school acceptable. 3+ years experience in design.
2. Strong sense of design and a high level of creativity are essential.

3. PC proficiency required; Mac proficiency a plus. Moderate knowledge of Flash, HTML, CSS, XML, Photoshop, and Dreamweaver required.

4. Asp.Net and eCommerce website knowledge is preferred.

5. Must have strong interpersonal skills in order to communicate effectively.

6. Portfolio of past and current work required.

Email all resumes, with salary requirements and online portfolio URL's to jobs@funimation.com

This is a great opportunity to work on a wide range of assignments in a creative environment. FUNimation Entertainment offers one of the most competitive compensation and benefits packages in the industry including health, life, dental, STD/LTD, matching 401K, and tuition reimbursement.

FUNimation Entertainment is proud to be an equal opportunity employer!

Description

Graphic Designer

About Us

RigData, a nationally recognized business intelligence provider headquartered in Fort Worth, Texas, monitors oil and gas drilling activity in the United States and the Gulf of Mexico. Since 1981, RigData has supplied oil and gas service companies, operating companies and drilling contractors with the most accurate, timely information in the industry.

Summary- Graphic Designer

RigData is seeking a talented and enthusiastic *Graphic Designer (Print and Web Design)* to handle the creative aspects of print and online design for the company. The candidate should have a proven artistic vision with the ability to take projects from conception to completion and meet schedules and deadlines. The ideal candidate has a great sense of style, aesthetics and creativity together with an understanding of project objectives that can be unified to translate into meaningful visuals.

Responsibilities - Graphic Designer

This position will work closely with the marketing, editorial and data departments to contribute strategic and conceptual skills to both print and online projects which include: creating marketing and sales presentations, collateral, signage, publication layout, website design and other graphical requirements.

Responsibilities of this position include designing for a broad range of media:

- Marketing collateral (brochures, presentations and promo items)
- Advertising (print ads and postcards)
- Digital Media (websites, newsletters and banners)
- Publications (layout and design of reports and directories)
- Trade Show displays (booth graphics, signage and handouts)
- Corporate branding (logos, letter heads and business cards)

Requirements

Graphic Designer

The motivated team player will possess the following experience, knowledge and skills:

- Bachelors degree in Graphic Design or related discipline
- 3+ years of graphic design experience
- Knowledge and experience with a variety of 2D design software packages, including expert knowledge of Photoshop, Illustrator, Quark and/or InDesign.
- Working knowledge of DreamWeaver and Flash
- Experience with web-based programming or scripting language such as HTML, Actionscript, JavaScript or Ruby
- Exceptional artistic abilities, ideally across a variety of media, both traditional and electronic
- Strong hands-on knowledge of art creation tools and production experience
- Strong conceptual design, collaborative and organizational skills
- Excellent oral and written communication skills, along with solid organization and efficient time management
- Ability to collaborate with multiple departments in a deadline-driven environment

Benefits:

- For our Full-Time employees, we offer company sponsored health/dental/vision insurance
- Company paid holidays

- Personal time and vacation time
- 401(k), and more

(3.) Front End Developer (HTML/CSS)

at MarketNet, Inc.

Full-time | 24 September 2009

(Dallas, TX) MarketNet is looking for a motivated, energetic web developer with strong interpersonal skills, careful attention to detail, and extensive web site production experience to join our Front End Development team. You will create web solutions using semantic, cross-browser web sites primarily using XHTML, CSS, and unobtrusive JavaScript.

Required Skills and Experience:

* 3+ years experience in web design and production
* Expert in HTML, XHTML, CSS and standards
* Knowledge of advanced CSS layout techniques and table-less design required
* Solid understanding of cross-browser issues
* Must be proficient with Photoshop, Flash and Dreamweaver
* Familiarity with ASP.NET, Ajax and JavaScript
* Experience with enterprise CMS (RedDot/Ektron) and JavaScript libraries (jQuery/Prototype) is also preferred
* Experience in creating HTML templates to backend developers for data integration
* Great eye for detail, both in your code and in how the page looks in a browser
* Excellent written, verbal communication and interpersonal skills
* Must be detail-oriented, professional, and self-directed
* Design background is a plus

At MarketNet we have opportunities, experiences and challenges and are looking for the right person to join our team! □

Job Perks

We offer competitive benefits such as matching retirement savings, health and dental insurance.

Apply: For immediate and confidential consideration please submit your RESUME, SALARY HISTORY and PORTFOLIO (personal web site/URL's) to careers@marketnet.com. No phone calls or agencies, please.

(4.)HTML/CSS Developer

at Meltmedia

Full-time | 14 October 2009

(Tempe, AZ) Meltmedia is looking for a talented HTML/CSS developer. Your primary responsibilities will be turning Photoshop comps into beautifully crafted, standards compliant HTML/CSS coupled with content integration. You will work closely with our design and back-end development teams to own the customer facing experience.

Requirements:
- hand coding cross-browser HTML / CSS
- functional knowledge of Javascript
- love of standards
- healthy dislike of IE6
- understand the differences between XHTML and HTML □

Job Perks

The salary is competitive with a full benefits package, including your own MacBook Pro.

We provide a fun, open environment with dogs, a stocked kitchen, and many like minded web-centrics.

Apply: Please email your resume and links to any relevant work you would like to showcase to html-20091014@meltmedia.com
